

## RFA Privacy Statement

The Ryerson Faculty Association has an obvious requirement to respect the privacy of members and our members' personal information. While this is likely clear to all committee members, this form is to remind us, and to also provide a clear statement to our members that committee members understand this privacy requirement.

As a member of the Executive/Grievance/Negotiating Committee, from time to time, I, \_\_\_\_\_ may become privy to very personal information relating to a member's employment or personal circumstances. I undertake to maintain the privacy of this information, and not to discuss this other than with those who have made a similar undertaking and for such discussion to be restricted to the relevant RFA aspects of the information.

As member of the Executive/Grievance/Negotiating Committee, I will be absent myself from discussions where a conflict of interest exists (as defined in Bylaw 1).
